

## Call for papers

The theme of the conference is “Power Quality for the 21<sup>st</sup> Century”, and should be interpreted in its broadest sense. All electric power engineering is designed to improve the quality of power generation and delivery. Academic staff and their students, and industry researchers, are encouraged to share their research and indicate a topic in the scope list below that best represents their contributions.

- Automation and Control
- Condition Monitoring
- Deregulated Energy Markets
- Devices
- Distributed Generation
- Electric and Hybrid Vehicles
- Electric Machines and Drives
- Energy Management
- Energy Storage
- High Voltage Applications
- Magnetics
- Modelling and Simulation
- Power Electronics
- Power Engineering Education
- Power Quality
- Power System Reliability
- Power Systems
- Power System Harmonics
- Protection
- Renewable Energy
- Smart Grids
- Transmission and Distribution

All papers submitted will be peer reviewed by at least two independent reviewers, as per DEST guidelines. Final registered papers presented at the conference will be included in the IEEE Xplore database. Selected papers from AUPEC2010 will be submitted to the Australian Journal of Electrical and Electronic Engineering and the International Journal of Power and Energy Conversion for consideration for publication.

## Submission of papers

Prospective authors are invited to submit an abstract and digest electronically as a single document in MS Word or pdf format, typed double spaced for A4 size paper, and submitted to conference web site.

The first page should consist of an abstract of 50 to 100 words with fully headed paper title, names of all authors, preferred topic areas, and name, address and email address of the corresponding author.

The digest of up to 3 additional pages should include key equations, figures, and tables headed by the paper title only. The digest must state the purpose of the work, the manner in which it advances knowledge, and specific results and their significance, all in sufficient detail for undergoing a peer review process.

The final full paper is limited to a maximum of 6 pages in length and must be in the required IEEE conference paper format.

## Authors' deadlines

Receipt of abstract and digest	31 May 2010 (was 17 May)
Notification of acceptance	15 June 2010
Receipt of full papers	2 August 2010
Authors advised full paper status	1 September 2010
Revised full papers deadline	15 September 2010
Author and Early Bird registration deadline	21 September 2010
